

Chesterfield County, Virginia

Memorandum

DATE: May 4, 2007

TO: Chesterfield County Planning Commission

FROM: Richard McElfish, Director of Environmental Engineering
Scott Flanigan, Water Quality Manager

SUBJECT: Information Requested by Clover Hill District Commissioner

As indicated in a memorandum dated May 4, 2007 from Kirkland A. Turner, at the Planning Commission public meeting on May 3, 2007, Mr. Gulley requested that Environmental Engineering provide the Commission with a detail chronological record of the county's interaction with state and federal agencies regarding efforts to address water quality issues within the Upper Swift Creek watershed. Mr. Gully further requested that Environmental Engineering provide the Commission with a detail chronological record on the progress of the Environmental Quality portion of the draft Upper Swift Creek Plan amendment, from the beginning of the Plan amendment process to the present.

Staff has developed, for your review, a detail document concerning the initiatives and history of programs for the protection the reservoir to include the Watershed Master Plan and the Upper Swift Creek Plan amendments.
